

LOGAN TUCKER

HUNTINGTON FFA

PROFESSIONAL SUMMARY

Beginning this next chapter of my life, as an Agribusiness Major at Texas A&M University, my mission is to embrace and honor tradition while creating a legacy. Life and educational goals include building a future that highlights the importance of agriculture and sharing this passion with others. Over the years, this passion has grown to bring emphasis and value to the importance of agriculture through education, business, and agriculture policy improvement. By gaining a college education and pursuing a career in agriculture, I plan to share these passions and leave a lasting impact on others.
