Texas FFA!

I wish I could see y'all's smiling faces right now but I sure am excited to experience the first ever virtual convention knowing we are connected through our devices!

Throughout my time in FFA and amongst various changes, the people of our organization continue to impress me and are the backbone to my passion for agriculture. Each of you have a world of opportunity and potential to unlock this year! Let's **STRIVE** to accomplish that together. My very favorite thing is watching our members fall in love with this organization just like I have. We all have a place here where our passion can flourish.

I was raised to work hard, spread kindness and always find ways to be a friend. I would be elated to continue doing so as a Texas FFA State Officer. I can't wait until we can be together face to face but until then, keep doing **YOU!** Please don't hesitate to reach out if you need anything.

Best,
Annie Valicek
